

# Fetal Growth Restriction: Diagnosis, Management, and More

## Enhance your clinical confidence and efficiency in fetal growth restriction

This one-day course is designed for physicians and sonographers interested in the diagnosis and management of fetal growth restriction (FGR).

### Course Description

This one-day physician-led course will educate the learner on the diagnosis and management of fetal growth restriction (FGR). The course will review how FGR is defined and the important role of ultrasound in diagnosis and management of FGR. The course will also cover different sonographic tools which are predictive of adverse perinatal outcomes in the setting of FGR. The course will utilize up-to-date research, evidence-based guidelines, and numerous ultrasound cases involving FGR.

### Course Objectives

Upon successful completion of the program, attendees should be able to:

- Define fetal growth restriction (FGR)
- Acknowledge the role of fetal ultrasound in the diagnosis of FGR
- Learn specific sonographic features predictive of adverse perinatal outcomes
- Understand the latest research and evidence-based guidelines on the perinatal and ultrasound management of FGR
- Discuss the short and long-term outcomes of FGR and infant's diagnosed small-for-gestational age (SGA)

# Fetal Growth Restriction: Diagnosis, Management, and More (WHC 323)

**“Fetal growth restriction is a common complication of pregnancy with serious adverse perinatal outcomes. This course will provide attendees with a greater understanding of the important role ultrasound plays in its evaluation and definitive management.” - Michael S. Ruma, MD, MPH**

## Prerequisite

A thorough knowledge and understanding of 2D ultrasound imaging fundamentals and system instrumentation is required for this program.

## Clinical Learning Journeys

Relevant learning. Flexible experiences. Measureable outcomes.

## Facilitators and Speakers

### Michael S. Ruma, MD, MPH

Dr. Ruma is a maternal-fetal medicine specialist and physician partner at Perinatal Associates of New Mexico in Albuquerque, New Mexico. His clinical interests include research in the standardization of patient care, checklist utilization in obstetric ultrasound and efficiency in the perinatal practice.
