PHILIPS

Ultrasound

GI 212

Advanced System Training General Imaging 3D EPIQ

Advanced System Training (AST)

This one-day course provides an introduction to image optimization and acquisition on the EPIQ ultrasound system. The course will also cover a variety of advanced features which improve diagnostic confidence and workflow. Educational material will be presented in the form of lectures as well as instructor led hands-on scanning sessions.

Course Objectives

Upon completion of this program, attendees will be able to:

- Explain and utilize Image Optimization techniques
- Describe xMATRIX Live xPlane Imaging
- Explain and utilize Smart Exam Protocols to reduce keystrokes during exams
- Explain and describe the benefits of EPIQ technology as applied to elastography
- Explain Patient Data Management and Review

Make the most of your investment with education

In today's competitive and dynamic healthcare climate, it is critical to use your medical imaging systems to their fullest potential. Our goal at Philips Healthcare is to provide the clinical education you need to make the most of your equipment investment.
